Aniketh Janardhan Reddy

Education

Carnegie Mellon University - School of Computer Science, *Pittsburgh, PA*, Expected Dec 2019
Master of Science in Machine Learning, QPA: 4.00/4.33.
Coursework: Introduction to Machine Learning (PhD), Probability and Mathematical Statistics, Machine Learning for Large Datasets

Birla Institute of Technology and Science, Pilani, *Hyderabad, India*, Jul 2018
Bachelor of Engineering (Honours) Computer Science, CGPA: 9.93/10.
Selected Coursework: Machine Learning, Artificial Intelligence, Data Mining, Information Retrieval, Computer Graphics, Data Structures and Algorithms

Skills

Programming Languages: Python, C/C++, Java, MATLAB, SQL **Libraries:** NumPy, SciPy, PyTorch

Research Experience

Carnegie Mellon University - School of Computer Science, *Pittsburgh, PA*. Aug 2018–Present
- Working with Prof. Leila Wehbe on understanding the representation of language syntax in the human brain using functional magnetic resonance imaging (fMRI) and machine learning.

Smart Data Analytics Research, Universität Bonn, *Bonn, Germany*. May 2017–Aug 2018
- Developed an automated fact verification system called DeFactoNLP which could not only assess the veracity of a claim but also retrieve supporting evidences from Wikipedia. The system achieved a 0.4277 evidence F1-score and a 51.36% label accuracy.
- Built a state-of-the-art system which could automatically ascertain the trustworthiness of a website.
- Participated in the development and benchmarking of DeFacto, a triple verification framework.

Cognition Lab, Indian Institute of Science, *Bangalore, India*. Jan–May 2018
- Utilized fMRI and machine learning techniques to identify brain regions involved in attention modulation under the guidance of Prof. Sridharan Devarajan.

Academic Projects

Carnegie Mellon University - School of Computer Science
Detecting Duplicate Questions using Siamese Networks and Decomposable Attention. Aug–Dec 2018
- Devised a stacked system which determines if any two Quora questions are semantically equivalent using Decomposable Attention and a Long Short-Term Memory (LSTM)-based Siamese network. An accuracy of 83.98% was obtained using this system.

Birla Institute of Technology and Science, Pilani, Hyderabad, India
Named Entity Recognition for Telugu using LSTM-CRF. Aug–Dec 2017
- Devised a system which made use of LSTM and Conditional Random Fields (CRFs) to recognize named entities mentioned in Telugu texts with an F1 score of 0.8513

Using Machine Learning for Obtaining Stock Trading Insights. Jan–May 2017
- Designed a system which gave various stock trading insights to the user by employing various machine learning methods and helped maximize his/her gains

Deep Learning Techniques for Image Classification. Aug–Dec 2016
- Explored the usage of convolutional neural nets and transfer learning for image classification and built a system which achieved a 74.79% accuracy on the CIFAR-10 dataset

Honors and Certifications

Gold Medal, for best academic record (highest CGPA), Aug 2018
Birla Institute of Technology and Science, Pilani, Hyderabad, India.

Best All-Rounder Award, in recognition of multidimensional achievements, Aug 2018
Prof. V.S. Rao Foundation and Birla Institute of Technology and Science, Pilani, Hyderabad, India.

Technology Entrepreneurship Program, Indian School of Business (ISB), Hyderabad, India. Jun 2018

Merit Scholarship, Birla Institute of Technology and Science, Pilani, Hyderabad, India. 2014–18

Working Internships in Science and Engineering Scholar, German Academic Exchange Service. 2017
